

Alucoil North America, LLC

Re: Made in the USA

By way of this letter, Alucoil North America, LLC hereby confirms that both our larson® by Alucoil® PE and larson® by Alucoil® FR aluminum composite panel products are designated as domestic construction materials as defined in the Code of Federal Regulations - Title 49: PART 661 — BUY AMERICA REQUIREMENTS [49 CFR 661]. Hence, they are both compliant with the US Buy America Act. The Buy American Act (41 U.S.C. 10a-10d) generally requires that only domestic construction material be used in the performance of a particular government contract in question.

larson® by Alucoil® (ACM) aluminum composite panels are proudly manufactured in Manning, South Carolina USA. The components used to manufacture our products are sourced from various locations in the USA.

If you have any immediate questions please feel to contact either of us directly.
